Who we are

Now more than ever it's important for your business to have an IT solutions partner who can help drive your company to its full potential using technology, and providing support of technical experts for the strategic planning and deployment of solutions.

Our professional services are continually improving with the ever-changing trend of technological perfection, keeping up to date and always a step ahead.

We are a digital solution provider that enable your business or organization optimize operations, manage cost and provide innovative services leading to the actualization of goals.

We boast of an elite team of experienced, skilled full stack developers as well as an advisory and business strategist. We also belong to a global community of stack developers where we exchange innovative ideas, improve our abilities and follow up on the leading trends in technological advancement.

We also engage in Training, Capacity Building, Digital Skill Acquisition and General contracting.

About us

Formally known as iConcept Web Development, operating since 2010, we become a limited liability company in 2017 and we are now Hydracore Innovative Solutions Limited. We are a fast growing digital solution provider in Nigeria. Driven by passion and hard work, we help our clients build stronger, agile and innovative businesses.

Rather than dwell on our past achievements, we look forward to the enormous opportunities that are emerging from the growing shift to digital business.

We invest in new solutions and acquisitions, build our capabilities, and develop our teams to ensure a strategic position to help clients explore the vast opportunity and deliver on the potential of this new digital business era.

Hydracore Innovative Solutions Limited enables businesses and organizations optimize their operations, manage their cost and invest in innovation that unleashes new potential across their organizations.

What makes us unique is our ability to conceptualize, architect and implement new and expanded capabilities that allow our clients to transform legacy models to take their business to the next level

As an organization built on world-class operations, we bring technology to the market with the most complete value proposition in the industry. We simplify the complexities of the IT industry, solving not only our customers' technology problems, but also their business challenges.

At Hydracore Innovative Solutions, we define, we design, we develop and we deploy.

Our Mission

Hydracore Innovative Solutions Limited has a simple mission of moving to verge of optimal business success through providing reliable as well as satisfying services. We do not compromise our standards and we strive to deliver full-cycle solutions and plausible service delivery.

Our Vision

The vision of our company is to maintain strict industry standard services so that we can gradually move towards the optimum goal of being one of the most recognized solutions provider

Mobile Application Development

Are you looking for a team to help you build a great App for your company? We can handle mobile projects from small, simple Apps to complex projects.

We develop native and cross-platform mobile apps for multiple OS including android, iphone, windows, blackberry.

For all aspects of the development process we apply an iterative process allowing for a more flexible and efficient workflow.

For your app to succeed, you need a smart business strategy, well designed UI, and a talented mobile development team, Innovative mobile business strategies and Beautiful user experience designs.

APP STRATEGY

Mobile app strategy begins with the idea of interaction. The ultimate goal is to build the app that provides customers with exactly, what they want.

USER EXPERIENCE

User experience is way more than the way, app looks in terms of user interfaces. Its about providing "WOW" feeling to users, while they navigate.

CROSS PLATFORM

Enterprise-to-consumer apps are fueling demand of cross platform app development to rapidly develop and deploy mobile apps on several mobile platforms.
